## *Home Healthcare*

Serving Grinnell & Surrounding Communities

*Our goal is to help clients stay in their homes as long as possible by providing affordable private home healthcare services.*

## Mission Statement

COMMUNITY SERVICES OF  
ST. FRANCIS IS DEDICATED  
TO PROVIDING:

- Quality professional home healthcare services on an individualized basis;
- Affordable services which enable clients to live in their homes longer; and
- Peace of mind to clients and their family members.

*Are you in need of some help at home? Whether assistance is needed for a few weeks, a few months, or a few years, we offer a variety of services ranging from regular home health visits by a Registered Nurse to housekeeping services. Call me to discuss how we can help to make your life easier by developing and delivering an affordable plan of care based upon your specific needs.*

– Kayla Lint, RN, Director

*My husband and I moved to the Seeland Park campus in 2007. After his death, I was able to continue living in our 1400 sq ft home with assistance from the Community Services of St. Francis staff. I'm very familiar with the home health army of workers. I can tell they like working here and that they like old people! Positivity within the staff shows every time I've used their help. In 2022 at the age of 95, I decided it was time to downsize and I moved from my duplex to an apartment in the 8-plex. The home healthcare staff was a tremendous help in assisting me with this transition. It gives me peace of mind knowing I have a home health aide coming to assist me on a daily basis. I often have meals delivered and ride in the van to in-town appointments as well as to the grocery store. All of these services have helped make my life easier and allowed me to continue living independently in my own home.*

– Hazel Lease

## Fees for Services

Community Services of St. Francis offers a variety of affordable home healthcare services that can be individualized to meet your specific needs. Community Services of St. Francis is not affiliated with Medicare so it does not restrict eligibility, require a recipient to be homebound, or limit the type and length of services provided.
