Mission Statement

ST. FRANCIS MANOR IS DEDICATED TO:

- Consistently providing quality service; and
- Ensuring a supportive environment that promotes the physical, mental, emotional and spiritual well-being of all those we serve through dignity, respect, and integrity.

Activities, Dining & Services

Our activity directors enjoy planning group activities and events to keep residents active and entertained, including arts and crafts, exercise, baking, reading stories, playing games, holiday parties, musical entertainment, guest speakers, etc.

Healthy and nutritious meals approved by a dietitian are served three times a day and nutritious snacks are also available to residents who desire a mid-afternoon or before bedtime snack. Family members are welcome to enjoy a meal with their loved one at a low cost payable in the Administration Office.

We also make it easy for family members to spend time with their loved one by offering several social rooms for private gatherings or functions which can be reserved by calling the Administration Office. "After complications following surgery in 2018, I went to St. Francis Manor for skilled care. I received physical and occupational therapy every day which helped me regain my strength and balance so I could go home 3 weeks later. The therapy staff gave me many tips for living safer and more risk-free. I also appreciated having a large private room and very caring and friendly staff. I chose to return to St. Francis Manor again after two subsequent health events and highly recommend their skilled care services."

Gordon Canfield

A Life Plan Community

Skilled Nursing and Long-Term Care

A Life Plan Community

Nationally Recognized as a Quality Nursing Facility by the American Health Care Association At St. Francis Manor, we put the "care" in caring—from speeding up your recovery following a surgery or hospitalization before returning home, to long-term nursing care for a loved one. The Rehabilitation Clinic at St. Francis Manor is conveniently connected to our Skilled Care unit for easy access by patients to physical, occupational and/or speech therapy services. St. Francis Manor is proud of its national recognition as a Quality Nursing Facility by the American Health Care Association and is committed to maintaining quality care to all of its residents. Your family!

Skilled Nursing Care & Rehabilitative Services: GET IN. GET BETTER. GO HOME!

St. Francis Manor provides private or semiprivate rooms to individuals who require skilled nursing care and rehabilitative services before they can safely transition home following surgery, joint replacement, stroke, or other serious medical conditions. Medicare Part A (hospital insurance) and private health insurance plans typically provide coverage for skilled care after an individual has had a qualifying hospital stay.

Our skilled care services include a rehabilitation plan for physical, occupational and/or speech therapy to ensure you are able to make a safe transition home (see our **Rehabilitation Clinic**

brochure). If needed, therapy services can also be continued on an outpatient or in-home basis to keep you progressing toward a full recovery.

Long-term Nursing & Restorative Care

Restorative care is a free service provided by St. Francis Manor to its long-term care residents who are able to regain and/or maintain independence through a variety of active and/or passive exercises. When appropriate, a targeted program is designed for the individual based upon specific needs and abilities and is implemented by our Restorative Aides. Restorative care promotes and supports more active lifestyles for our residents and encourages greater participation in daily activities.
